	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
gra ob	wing limitations and conditions: This permit is issued subject to all existing ghts on the source. It is understood that the amount of water herein anted is only a temporary allowance and that the final water right tained under this permit will be dependent upon the amount of water tually placed to beneficial use. It is also understood that this
ric	ght must allow for a reasonable lowering of the static water level
at	permittee's well due to any other ground water development in the
are	ea. A substantial weir or other type of measuring device must be
ins	stalled and measurements of water use kept. The well shall be
egu	uipped with a 2-inch opening and an air line for measuring depth to
wat	ter. If well is flowing, a valve must be installed and maintained
•	prevent waste. The State retains the right to regulate the use of
	a water herein granted at any and all times.
The	amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
not to	cubic feet per second but not to exceed a
yea	arly duty of 5.0 acre-feet per acre of land irrigated from any and/or
	al construction work shall begin on or before November 27, 1966.
Proof	f of commencement of work shall be filed before
Work	must be prosecuted with reasonable diligence and be completed on or before November 27, 1967.
	f of completion of work shall be filed before December 27, 1967.
Appl	ication of water to beneficial use shall be made on or before November 27, 1969
Proof	f of the application of water to beneficial use shall be filed on or before
	in support of proof of beneficial use shall be filed on or before December 27, 1969.
